Introduction

These are exciting times at [MOJ Digital and Technology](#). We have a clear vision - to develop a digitally-enabled justice system that works more simply for users - and we're looking for talented people to help us achieve it.

We're making things better by building adaptable, effective services and making systems that are simple to use for staff and citizens. It can be challenging but it's also important and rewarding.

As well as doing great work, we're creating a place that's great to do work in. We offer tip-top kit, brilliant training opportunities and support from expert colleagues. On top of that, you'll find flexible working, an inclusive culture and a place where your opinion is valued.

As a senior developer at MOJ Digital & Technology you will be designing and building web systems that make a genuine difference to people's lives. You'll make sure we build things the right way, keeping up to date with the latest technologies and trends, whilst delivering working software early and often.

At MOJ you'll be working on our acclaimed open-source public services, with user needs at the heart of everything, helping us transform Government for the future. Working as part of a multi-disciplinary team, you'll be helping define how we do what we do, and making sure that our systems are built to be changed rapidly.

Technologies

You will have demonstrable experience of agile development in modern software engineer using technologies such as **Javascripts** or **Java** and excellent working knowledge of modern back-end web frameworks such as (Java) **Spring Boot**, as well as an understanding of front end development in HTML, CSS, and Javascript. You'll also have some knowledge of, or a willingness to learn, other languages and frameworks as required, e.g. React, Express, node, etc

An understanding of version control (ideally with Git) is essential, as is an awareness of automated testing techniques, modern deployment approaches and how cloud infrastructure is managed.

You will:

- Build user-centred, open source, RESTful web systems to serve a variety of citizen and government needs
- Be responsible for development of large areas of projects, or small projects in their entirety

- Build automated tests to support our continuous deployment environment
- Share knowledge of tools and techniques with the wider team and community, both developers and non-developer.
- Transform government into a more agile organisation by helping to embed modern development practice.
- Help build and maintain a diverse, inclusive culture across the development community, growing awareness, inclusivity, and balance
- Occasionally participate in 2nd line support during office hours, and sometimes out of hours (for which you'll be paid an allowance and further hourly payment when on call)
- Possibly manage a small number of less experienced developers
- Help with hiring, taking part in recruitment of other developers

All our developers should have:

- Experience of software development, with knowledge of Javascript, Java, Python, PHP, Ruby or similar
- A systematic approach to solving problems
- Experience using automated tests to continuously validate your work
- Experience of modern development and deployment techniques, including continuous integration and continuous delivery
- Experience working in agile environments
- Enthusiasm for sharing knowledge and working in a multi-disciplinary team
- A working knowledge of unix-like operating systems such as Linux and Mac OS X
- An awareness of technologies used for web applications, e.g databases, backups, CDNs and search, and of Unix-like operating systems, eg. Linux and/or Mac OS

As a senior developer you'll also have:

- The ability to quickly learn new languages and frameworks and willingness to pick the right tool for the job
- The ability to manage technical debt appropriately and proportionately
- Knowledge of open source principles and technologies
- Familiarity with practices such as TDD, continuous integration, continuous delivery, and DevOps
- Experience of mentoring and supporting your colleagues, whether one-to-one or in groups

Throughout the process we will assess your technical specialist skills and experience on the above requirements as well as competencies you will find on the job description.

We are an equal opportunity employer and value diversity at our company. We do not discriminate on the basis of race, religion, colour, national origin, gender, sexual orientation, age, marital status or disability status.

Salary and working arrangements

If successful, the salary we offer you will be within the advertised range and will depend on the skills and experience you demonstrate at the interview.

Therefore in your cover letter it would be helpful to the hiring teams if you can indicate your salary expectations and if possible your notice period.

You'll also get:

- Truly flexible working. Whether it's working from home or remotely, working part-time, job sharing, or working compressed hours, we have people doing it and are happy to discuss options with you
- Lots of training and development opportunities
- A civil service pension with an average employer contribution of 22%
- 25 days annual leave (plus bank holidays), and an extra day off for the Queen's birthday. No promises you'll be invited to her party, though
- Great maternity, adoption, and shared parental leave, with up to 26 weeks leave at full pay, 13 weeks with partial pay, and 13 weeks further leave. And maternity support/paternity leave at full pay for 2 weeks, too!
- Bike loans and secure bike parking (subject to availability and location)
- Season ticket loans, childcare vouchers, and eye-care vouchers.

Selection process details

Candidates must submit:

- a current and relevant CV;
- a statement of suitability (1 page max) setting out why you are interested in the role and how you meet the essential skills and experience required.

The job advert lists the essential, specialist skills and experience as well as key Civil Service competencies required for the role. In addition please refer to the job description attached to this job advert which gives you more detail to help you prepare for the interview.

At the CV review/sift stage we will use the technical/specialist skills and experience to determine your suitability for the role. At the interview we ask you questions based on the specialist/technical skills and experience in the job advert and job description.

We conduct competency based interviews which means the interviewers will ask open-ended questions to which they are seeking answers/evidence of essential, previous experience in order to guide their hiring decision. Some roles may also require us to use assessments as part of the interview process.

Please note that due to the volume of applications we receive we are unable to provide feedback after the CV review (sift) stage.

Things you need to know

Security and Immigration checks

Successful candidates must pass a disclosure and barring security check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check](#).

Candidates will be subject to [UK immigration](#) requirements as well as [Civil Service nationality rules](#).

If you're applying for a role requiring security clearance please be aware that foreign or dual nationality is not an automatic bar. However certain posts may have restrictions which could affect those who do not have sole British nationality or who have personal connections with certain countries outside the UK.

Nationality requirements

Open to UK, [Commonwealth](#) and [European Economic Area \(EEA\)](#) and certain non EEA nationals. Further information on whether you are able to apply is available [here](#).

Eligibility

Candidates in their probationary period are not eligible to apply for vacancies within this department.

Working for the Civil Service

The [Civil Service Code](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles](#).

The Civil Service embraces diversity and promotes equality of opportunity. There is a guaranteed interview scheme (GIS) for candidates with disabilities who meet the minimum selection criteria.

Contact point for applicants

For further information regarding this role please contact MoJ D&T Recruitment.

Further information

All Civil Servants will adhere to the '[Civil Service code](#)', which outlines the Civil Service's core values, and the standards of behaviour expected of all civil servants in upholding these values.

Note for Civil Servants only: If successful, the salary offered would normally be determined by applying the MoJ salary progression rules. If the appointment is on level transfer your substantive salary (excluding any allowances) will remain unchanged, unless it exceeds the maximum stated within the MoJ pay band, and unless your current salary is below the relevant MoJ grade minimum. If the appointment is on temporary or substantive promotion the salary will be increased by the appropriate promotion percentage or moved to the minimum of the relevant MoJ grade minimum, whichever is the greater.

Note for all Applicants - This post is open to UK Nationals, Commonwealth Citizens, EEA Nationals of other member states and certain non-EEA family members. There must be no employment restriction or time limit on your permitted stay in the UK. You should normally have been resident in the United Kingdom for at least 3 years and in some cases 5 or even 10 years preceding your application due to the requirement to have a checkable history for security vetting purposes. If you answer 'No' to the questions regarding nationality then it is unlikely your application will be pursued. If you are unsure as to your eligibility on any of these points, please contact the recruitment team for clarification or advice.
